# LOCAL TRADE CONDITIONS

Money Still in Request, with Bankers Fully Able to Supply the Demand.

Higher Prices Bid on 'Change for Corn-Shippers Paying Less-Prices on Poultry and Vegetables Stiffening-Sugars Up.

#### MONEY AND STOCKS.

No Change in the Local Financial Situation -Currency Still in Active Demand, There was no special change in the local financial situation yesterday. Bankers report a slight increase in deposits and a continued demand for money from merchants and country banks. If the roads remain frozen a few days, enabling farmers to reach shipping points with their corn, there will be a greater request for currency, and Indianapolis bankers eay they are ready to meet it. New York exchange is more plentiful, indicating that shippers of cereals are being paid for their

Eastern consignments. Money was easy yesterday. Loans on prime mercantile paper were made at 7/28 per cent. The bank clearances were \$816,-476.80, against \$995,951.28 Nov. 17, 1890. The balances amounted to \$78,508.65, compared with \$57,544.80 on the same day last year. In comparing the clearances it is fair to state that on Nov. 17 last year they amounted to \$300,000 more than on any other day of that week. This year the daily average is better.

NEW YORK QUOTATIONS. At New York, yesterday, money on call was easy, ranging from 3 to 4 per cent., the last 'loan being made at 3 per cent.; closing offered at 3 per cent.

Prime mercantile paper, 5@61/2 per cent. Sterling exchange was quiet and steady at \$4.80% for sixty-day bills and \$4.85% for

The total sales of stocks to-day were 143,-857 shares, including the following: Atchison, 10,160; Delaware, Lackawanna & Western, 6,000; Delaware & Hudson, 3,427; Erie, 5,775; Louisville & Nashville, 3,620; Northern Pacific preferred, 3,500; Reading, 18,700; Richmond & West Point, 4,865; St. Paul, 11,800; Union Pacific, 4,000.

The stock market was very dull, but on the whole, shares experienced a firm tone, while in only a few of the leading ones were the fluctuations of sufficient importance to deserve notice. The indisposition of local operators to take the lead any iresh movement tended restrict both transactions and changes. The coal stocks were in better demand, and the inquiry for Delaware & Hudson was sufficient to advance its prices 11/2 per cent. net for the day. The other coalers showed no material change during the day. The rest of the list was inclined to strength during the forenoon, and, while losing most of the gain later in the day, were stubbornly held. The investment inquiry is increasing, and pur-chases for the account are likely to show a material increase by the middle of January. All the activity in the market was centered in Reading, Atchison and St. Paul, but even in those shares there was no real life and prices crawled up small fractions. While a portion of this gain was afterward lost, no weakness was apparent anywhere in the list except in Tennessee Coal, which declined from 3952 to 38, and recovered later to 38%. Delaware & Hudson, after selling down to 1194, recovered to 122 and closed at 1214. The general list, after an irregular opening, advanced slightly and reing no feature of any kind, the dulinees becoming most intense during the afternoon. The close was very dull and steady to firm at insignificant changes from first

prices. The final figures were all within small fractions of the previous night's prices, with the exception of Delaware & Hudson, which is up 11/2 per cent. Railroad bonds were quiet, with a wide-ly distributed business. Total sales were \$1,158,000. The market displayed the same firm tone that stocks did, but St. Louis Southwestern bonds were especially weak. Government bonds were dull and steady. and State bonds entirely neglected. Closing quotations were:

Higher Prices for New Corn Bid on 'Change -Shippers Paying 1 Cent Less, New corn was quoted higher at the Indianapolis Board of Trade yesterday, 440 being bid for white mixed and 44c for No. 2 and 3 yellow and mixed. Wheat was unchanged, but oats went off 4c for No. 2 white and No. 2 mixed. No sales were re-

ported on 'Change. Buyers for Eastern markets report new corn le lower at the shipping points and increased receipts. Cold weather will, they say, tend to weaken prices and at the same time put corn in better condition for shipment by hardening and drying out the

may bring down intelligence of a small riot. The Jureau Mining Record suggests that in view of the injustice offered from appointive officers under successive administrations, the people of Alaska, irrespective of party or creed, should assemble in convention and prepare a bill for a territorial form of government suitable to the needs and conditions of Alaska, submit the bill to the people of Alaska for their approval by ballot, then for-ward it to Congress and ask its approval by that body. If Congress should refuse to pass such a bill every resident of Alaska is advised to rise as one man and unfurl the motto, "Alaska for Alaskans," elect their own judicial officers and resist all processes emanating from officials whose tenure of office is under organic act.

Feeling of Confidence in the Chicago Market Caused by the Cold Snap.

Another Report that Russian Prohibition Has Been Ordered-Heavy Receipts of Corn Cause a Drop-Liberal Demand for Hogs.

#### TRADING AT CHICAGO. Sudden Change in Temperature Thought to

Have Hurt Wheat. CHICAGO, Nov. 17 .- There was a feeling of greater confidence in the wheat market to-day, and although trading was not particularly active, the market was strong. A fall in temperature of 250 throughout the wheat belt left no doubt that with zero weather the moist earth would soon be frozen solid, to the great detriment of the growing crop, and it was this influence, more than the reports of Russian prohibition, that strengthened the market. The Australian wheat crop is reported to be 32,800,000 bushels, against 42,500,000 bushels a year ago. The quantity of wheat and flour on ocean passage increased 2,480,000 bushels. The export clearances from four ports aggregated 429,000 bushels of wheat and flour. Local stocks of contract increased \$31,000 bushels during the past week. Closing London cables were reported stronger. Freight room was engaged here for 70,000 bushels of wheat. Arrivals in the Northwest were smaller. Receipts at Duluth were 414 cars and Minneapolis 349 cars—a total of 763 cars, against 2,247 cars yesterday and 364 cars a year ago. Local receipts were 511 cars, of which 138 cars were of contract grade. Withdrawals from store amounted to 174,216 bushels. Receipts at all points aggregated 1,869,484 bushels, and shipments from the same were 1,033,472 bushels. The clearances from four ports were 22,000 barrels of flour and 230,377 bushels of wheat. The opening was about & @ 120 higher than yesterday's closing, but ruled weaker, declined 12 @ 18c, then became stronger and prices were advanced %c, again eased off, declining %c, ruled irregular within a all range and the closing was %c higher than yesterday.

The receipts of corn were considerably over the expectations, and caused a drop ranging, at the opening, from \$ @ \$c under the closing prices of the previous afternoon. The opening price for November was 52c, and it sold as low as 514c, closing at 514c, or 4c lower than on the day previous. Year closed with a loss of 4c, and May shows a drop of 4c.

November oats made an advance of 4c, while May declined &c. The first-named future sold at 324@32%c, and closed at 32%c bid. The last-named sold at 52%@ 32%c, closing at 32½@32%c. The strength in November was due to a scarcity of offer-

The receipts of hogs were liberal, but the demand for them was such as to prevent a decline in price, according to advices from the yards. Heaviness in the corn market, with the big receipts of hogs, gave the provision market a weak opening. Trade was very dull, but scalpers developed an inclination to take the long side for a short turn, and caused some reaction in an upward di-rection. A fair amount of steadiness prevailed until about ten minutes from the close, when, on an attempt to realize on early purchases, there was an instant collapse, leaving prices about as they had opened, and at a reduction of from 74c to 10c for pork, .024c on lard, and from that

Outside of the Australian news the conditions were bearish. The market opened at 87% c and went down to 87%c, and fluctuated for a time between the two prices. About 11 o'clock the Australian report came in, giving the crop this year, which will go into market in January at 32,800,000 bu, against 42,500,000 bu last year. This was a clear shortage of 10,000,000 bu under estimate, and there was an immediate response to the bull side by an advance to 88 sc. But there was some fluctuation under this point to 87%c, but the market held firm to a close at 884c. The cash market was in good condition, prices ruling lower than yesterday. Over two hundred cars were sold. The receipts of wheat were light on account of car shortage. It is an old-fashion notion that medicine has to taste bad to do any good.

Scott's Emulsion is codliver oil with its fish-fat taste lost-nothing is lost but the

This is more than a matter of comfort. Agreeable taste is always a help to digestion. A sickening taste is always a hindrance. There is only harm in taking cod-liver oil unless you digest it. Avoid the taste.
